# NEW COLLECTION

---

In our new collection we are taking it to the next level, crossing borders, raising the bar. We reach out to new materials, challenge existing shapes and focus on the multisensorial aspect of lighting as a tool, and as a system. Light, and much more.

**MINIMALISM MEETS COMFORT**  
Maximum light comfort in linear lighting... the starting point in the design of the Inform. Sensual curves or pure lines, architectural lighting at its best: eye for design, eye for the user and eye for performance.

**NEXT GENERATION**  
Longstanding Delta Light classics Backspace and Walker have been upgraded, both in design and technology. Recognizable yet more advanced, illuminating exterior walls and pathways with class and elegance.

**INVISIBLE YET TANGIBLE**  
Impressed by his extensive expertise and passion during the design of the Polesano, we decided to go on our next adventure with lighting designer Dean Skira. Together with Dean we take you on a journey to the ultimate minimalism, introducing Nime.

**ENDLESS REFLECTIONS**  
In 2018 we presented Reflections, a series of new adventures in decorative luminaire design. In this new collection we expand on the range with Mantello and Still. Enjoy the fine craftsmanship, warm atmosphere and ever-changing elegant dynamic of these new designs.

**OPTICAL PRECISION**  
Delta Light's team of engineers and optic experts is on a continuous quest to match the company's credo for design with an optimal quality of light. With the new Frax we have taken our fascination for the perfect beam outside. Clean-cut light distribution to boost your outdoor experience.
